Instructions for adding HSC calendar to an android phone.

You must have google calendar app on your phone and have a google account. It is a free app, and easy to install from the Android App Store.

From a PC.

Open Highcliffe sailing club web page. Also open and log into your google account from another web browser tab. (this is important and it will not work unless you have google calendar open in your browser.

From HSC web page Select drop down list from club and select members only section

      Password is HSCSAILS

When page loads scroll down to bottom of page and select the link for android phones.

It should jump to your google calendar page and give you option to add calendar – select ADD.

You should then see all events show on your PCs browser page.

On your Android phone.

Go to Google calendar app

Select calendars – you may need to press more if you do not see HSC.

Hold down HSC for options to show and make sure sync is selected

That's it!
